## Product Description

We have 10 years of experience in the production of non-woven bags. We use high-quality non-woven fabrics produced from new polypropylene raw materials, which can provide rich and firm fabric dyeing. According to the customer's customized specifications and sizes, we provide hand-stitched sewing. There are two production methods of manufacturing and ultrasonic bonding to meet the different needs of customers. At the same time, our company has a professional design team, which can design the size of the bag and the pattern, text, barcode, QR code, and customized packaging according to the needs of customers.
